

We need the next Government to recognise local pharmacies as a solution to many longstanding problems in the NHS and to act decisively to unlock the sector's huge potential.

#VotePharmacy

With the right support and investment from Government, pharmacies can do more to:

- ✓ Take pressure off GPs and hospitals
- ✓ Make access to NHS care more convenient
- ✓ Help people with long term conditions
- ✓ Tackle medicines waste and save the NHS money
- ✓ Help vulnerable people in deprived communities and reduce health inequalities
- ✓ Be the front door to health
- ✓ Help people to stay healthy and reduce the burden of disease on our population and health services
